

FOREWORD

EDITOR'S NOTE.—*For many years, the California Medical Association has printed annually a Membership Directory, some issues having more than two hundred pages. In recent years, the Board of Medical Examiners of the State of California, with headquarters at 420 State Office Building, Sacramento, has also printed a directory, containing the name, date of birth, years of licensures in different states, and the office address of every physician and surgeon licensed under its jurisdiction. The State Board Directory has also contained much other information concerning the Medical Practice Act, and narcotic and other laws related to healing-art practice in California. A copy of each year's directory is sent to every physician and surgeon who has a license to practice in California.*

Directories of the California Medical Association brought off the press in the past have also presented historical and other information of similar nature.

In order to avoid duplication of printing and other costs, the California Medical Association in the last few years has printed a membership roster giving the names of members and the city or location in which they practice, with key numbers to indicate county medical society membership. This information, when used in connection with that given in the directory of the State Board of Medical Examiners, should answer all ordinary needs.

For additional information, inquiry should be made of the secretaries of the California Medical Association or the Board of Medical Examiners of the State of California.

For reference convenience, CALIFORNIA AND WESTERN MEDICINE is printing this Membership Roster, containing the names of all members through date of March 1, 1939, as a supplement to its March issue. For possible future use, members are advised to place this Membership Roster Supplement in their library files.
